

## Combination Insect & Weed Control Products

### Key Benefits

Award Turf Fertilizer containing Acelepryn® and Dimension® combines two premier active ingredients in one great product! Dimension's extended application window provides season-long control of crabgrass and suppresses other listed annual grasses and broadleaf weeds. Acelepryn, recognized by the EPA as a reduced risk pesticide, controls both surface and sub-surface feeding insects for season-long grub control.

For maximum effectiveness, apply at the higher listed rates for preventative and curative control.

**Choose the product that is right for you.**

- 3-in-1 (Insecticide, Herbicide, Fertilizer)**
- Season-long crabgrass and grub control.**
- Saves time which saves money.**
- Spread rates offer improved efficacy, see chart below.**
- Low environmental impact.**
- Proven chemistries with decreased risk to non-target organisms.**
