

ERO-GUARD

MATERIALS DATA SHEET:

Product Name: EG-Straw Logs

Manufacturer: Ero-Guard, Inc.

Contact: Martenson Turf Products, Inc. 800-833-2290

Physical Description:

Composition: EG Straw Logs are composed of agricultural weed free straw.

Netting: 0.5" x 0.5" Heavy duty black, UV Stabilized tubular netting.

Configuration: Cylindrical with closed ends that are either hog ringed, zip tied or hand tied to ensure the integrity of the log.

Packaging: EG Straw Logs are rolled and tied, then placed on pallets.

Log Diameter	Length	Weight	Density
6 in	20 ft	56 lbs	2.8 lbs/ft ³
9 in	20 ft	60 lbs	3.0 lbs/ft ³
12 in	20 ft	64 lbs	3.2 lbs/ft ³

Recommended Applications: EG Straw Logs are designed to reduce hydraulic energy and filter sediment out of running water in channels and on slopes. These logs are flexible and conform to the ground which they are laid on and can be ordered in custom lengths if a job requires.
