

Lower Cost - Better Results

About Slicky Sticky®

Slicky Sticky®
About

Slicky Sticky® is a high quality polyacrylamide, specifically formulated as a hydro-seeding mulch additive. It is fully biodegradable, environmentally safe, and E.P.A. exempt.

Superior to Guar

Slicky Sticky® provides soil erosion protection and lubrication at rates as low as 3 ounces per bag of mulch. However, research indicates that ½ to ¾ of a pound per 1,000 square feet of application provides erosion benefits superior to guar.

Prevents Machine Clogging

Slicky Sticky® makes any mulch product, paper or wood, very slippery and easier to pump. *Slicky Sticky*® is 6 to 8 times more slippery than guar, so clogging is highly unlikely in any machine.

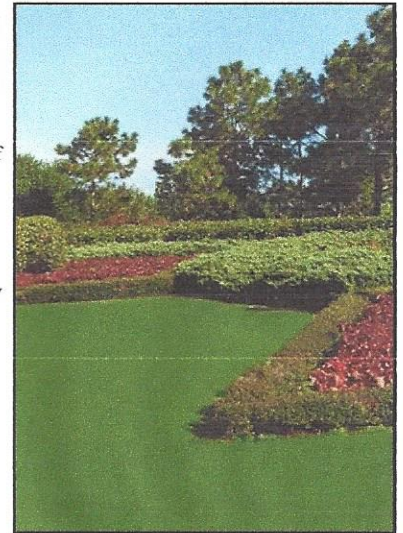

Better Mulch Performance

Slicky Sticky® has a profound effect on the performance of paper or wood fiber mulch. *Slicky Sticky*® allows coverage of ¼ to 1½ times the land area using the same amount of mulch. And, when *Slicky Sticky*® is applied, mulch longevity is increased, further stabilizing the soil until the planted seed becomes established.

Better Seedling Emergence

Slicky Sticky® is an effective tackifier which prevents seed and mulch from washing. But it also enhances seed germination, usually resulting in quicker and a more uniform grass establishment. For faster and better grass growing results, always use *Slicky Sticky*® in every tank load.

Slicky Sticky® is packaged in an easy-to-pour, 15 pound plastic bottle with a screw-on-lid. This convenient packaging helps avoid slippery machine decks caused by wet or torn bags, or spilled product.

Establishing a beautiful lawn is easier with Slicky Sticky®.

With *Slicky Sticky*®

- *Better Erosion Protection*
- *Better Seed Germination*
- *Better Mulch Performance*
- *More Uniform Emergence*

AND

- *Reduces or Eliminates Clogging*
