

WIPEOUT®

SPRAY TANK CLEANER

PRINCIPAL FUNCTIONING AGENTS

A proprietary blend of anionic surfactants, ammonia and sequestering agents 100%
TOTAL 100%

All ingredients are exempt from tolerance under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN

DANGER

May be harmful if swallowed
 Causes severe skin burns and eye damage
 Causes serious eye damage
 May be harmful if inhaled
 For help in chemical emergencies involving spill, leak, fire or exposure, call CHEMTREC toll free at 1-800-424-9300.

NET CONTENTS: 1 U.S. GALLON (3.79 L) SN 123014

MANUFACTURED FOR

HELENA CHEMICAL COMPANY

PRECAUTIONARY STATEMENT

DO NOT FREEZE

BEFORE USING THIS PRODUCT READ ALL PRECAUTIONS, DIRECTIONS FOR USE, CONDITIONS OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

May be harmful if swallowed. Causes severe skin burns and eye damage. Causes serious eye damage. May be harmful if inhaled. Keep out of reach of children. Read label before use. Keep container tightly closed. Keep only in original container. Do not breathe dust/ fume/ gas/ mist/ vapors/ spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Store locked up. Dispose of contents in container to an approved waste disposal facility in accordance with all local /regional/national/international regulations.

Personal Protective Equipment (PPE): Wear protective gloves/ protective clothing/ eye protection/ face protection.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing. If eye irritation persists: Get medical advice or attention.

IF ON SKIN OR CLOTHING (or hair): Take off immediately all contaminated clothing. Rinse with water or shower. Wash with plenty of soap and water for several minutes. If skin irritation occurs: Get medical advice or attention.

IF SWALLOWED: Rinse mouth. Do not induce vomiting. Unless advised otherwise by a poison control center or doctor, if able. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

STORAGE AND DISPOSAL

STORAGE: Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all federal, state and local regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and

local ACRC recycler visit the ACRC web page at www.acrcycle.org.

GENERAL INFORMATION

WipeOut® is a highly concentrated cleaner that penetrates and solubilizes agricultural chemical residues. WipeOut® will also help prevent contaminants from re-adhering to spray system surfaces during flushing. WipeOut® neutralizes acid residue and is formulated to counteract the detrimental effects of minerals commonly found in hard water. With the development of today's new low use-rate agricultural pesticide compounds, along with the increased usage of tank-mix applications, special attention should be given to cleaning the spray system thoroughly. To attain optimum results, clean spray system as soon as possible after usage, check hoses for leaks and aging, clean screens and nozzles thoroughly with WipeOut® solution, and make sure all pumps are clean as well as lid and outer tank.

SUGGESTED USAGE RATE

LARGE VOLUME SPRAYERS – USE RATE: 400:1 ratio (1 gallon of WipeOut® to 400 gallons of water or 1 quart of WipeOut® to 100 gallons of water). Adjust the solution rate as needed for individual conditions. Older poly tanks or dirty tanks will require a stronger solution. If the foam in the treated solution begins to dissipate, add more WipeOut® to increase the solutions cleaning strength. Circulate the WipeOut® treated solution throughout the spray system for 10-15 minutes. Use a high pressure sprayer or hose to clean all interior areas and tank wells. For extremely dirty or questionable tanks, allow solution to remain in system for 8 or more hours, then recirculate. Purge hoses, spray lines and nozzles for at least 1 minute with the cleaning solution. After cleaning, drain and flush entire system, including nozzles, with clean water.

HAND HELD SPRAYERS – USE RATE: 1 ounce of WipeOut® per gallon of rinse water. Agitate thoroughly, drain and follow with clean water rinse.

SPECIAL PRECAUTIONS

The use of WipeOut® or other tank cleaners does not guarantee the removal and/or neutralization of all residues. Some pesticides such as 2,4D and Dicamba, may leave persistent or hard to remove residues. Due to many variables that exist which make consistent tank cleaning difficult (i.e., water quality, use of cleaning equipment, quantity and type of residue, the age, condition and type of spray tank, spray lines, nozzles, etc.), it is always suggested that operators test the final rinsate to ensure that no pesticide residue remains. This can be accomplished by the following test method:

- Retain a small sample of the final rinsate and apply it to one or more sensitive plants such as an ornamental flower, tomato or cotton plant. Observe the treated plant for 48 hours. If damage occurs, clean the spray system until the rinsate tests pesticide free.

CONDITIONS OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale-Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full price will be refunded.

The directions on this label are believed to be reliable and must be followed carefully. Insufficient control of pests and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Helena Chemical Company (the "Company") or the seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.

The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Helena Chemical Company's election, one of the following:

1. Refund of the purchase price paid by buyer or user for product bought, or
2. Replacement of the product used

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
