

ABOUT US

Martenson Turf Products, Inc. is a family owned and operated business, which began in 1978. We are a professional, full service wholesale supplier of quality turf products to landscapers, contractors, golf courses, school districts, parks & recreation facilities, forest preserves, municipalities and various agricultural or turf businesses. We are located in Waterman, IL and service the Northern IL, Southern WI, Northeastern IN and Iowa regions. We are recognized as a leader in the turf industry for our integrity in the marketplace by maintaining a quality yet competitive product with first class service.

QUALITY - Our own custom products and the manufacturers we distribute are top notch. We will help you to choose the right product for the specific job, as price should not determine what product our customer uses.

SERVICE - We will deliver the order when and where you need it. If you need a particular product and can't find it, we have the resources and the customer service to locate it and ship it in. If you have the specifications of a mixture, we can put it together promptly. Have a questions or need our opinion? Our professional experience is available to you with a simple phone call to our main office or to one of our Martenson Technical Representatives. They have expertise in current product information, soil testing, maintenance scheduling, custom blended fertilizers and custom grass seed mixtures to help you achieve superior results. If you want a sales representative to call on you, contact us.

INTEGRITY - Saying we will do something; consider it done. If it can't be done, we will let you know immediately. We are a company that leads by example and understands that our customer needs to be successful first in order for our company to succeed.

The company was founded by John and Mille Martenson in 1978 and is still located in Waterman, IL. Having an agricultural teaching degree, a farming background and wanting to diversify into a business; they purchased a grain facility with the vision to change it into a wholesale supplier for the turf industry. They saw a need in the turf marketplace for service. If the customer needed a particular product immediately, they would delvier it. Thus Martenson Turf Products, Inc. was established.

We have grown to employ Technical Representatives that service our customers, truck drivers that deliver the products, warehouse personnel to accommodate customers at our facility and a professional staff in our main office to handle all your turf needs. In the mid 1990's, Jeff Martenson their son joined the company; bringing along his farming background and knowledge of the turf industry to the company. Continuing to grow, two additional concepts, quality and integrity became just as important as service. By practicing all three character traits, Martenson Turf Products, Inc. has become a business of growth and sustainability. We encourage the potential customer the opportunity to experience what our company has to offer.
